*Foundational Truths on Sex in General*

Sex was thought up and designed by God

Sex is more than just a physical act.

Sex affects more than just you and the other person.

As a believer, you belong to God and that includes your body.

*Bad Sex*

Any sex with someone you are not married to.

Any sex with anyone of the same sex.

Any sex with anything other than the spouse to whom you are married.

Any form of pornography.

Any sex that is not consensual.

Sexual immorality is always destructive, unloving and selfish.

*Good Sex*

A husband is to have sex with his wife when and how she likes it.

A wife is to have sex with her husband when and how he likes it.

A husband and wife are to be God honoring in their sex.
