Foundational Truths on Sex in General

Sex was thought up and designed by God

Sex is more than just a physical act.

Sex affects more than just you and the other person.

As a believer, you belong to God and that includes your body.

Bad Sex

Sexual immorality is always destructive, unloving and selfish.

Good Sex

A husband is to have sex with his wife when and how she likes it.

A wife is to have sex with her husband when and how he likes it.

A husband and wife are to be selfless and God honoring in their sex life.

To not meet your spouse's sexual desires is to give an opening to Satan in your relationship.

God created sex, and He is stoked on it whenever it is practiced as it was designed to be.
